

CYBER BEST PRACTICES

Incident Response Plan Review

Review written plan for responding to cyber incidents + identify third-party vendors who may assist.

Conduct a Tabletop Exercise

Conduct routine tabletop exercises to test incident response plans.

Assess Emerging Technologies

Evaluate options for new technologies (AI, etc.) to improve cybersecurity posture.

Vendor Management

Evaluate vendor management program and ensure agreements require adequate security controls.

Cyber Insurance

Assess the current cyber insurance policy to ensure sufficient coverage and potential exclusions.

Data Mapping Procedures

Conduct a data mapping exercise to evaluate what information is collected, where it is stored, etc.
